Google Play Console - Account Verification

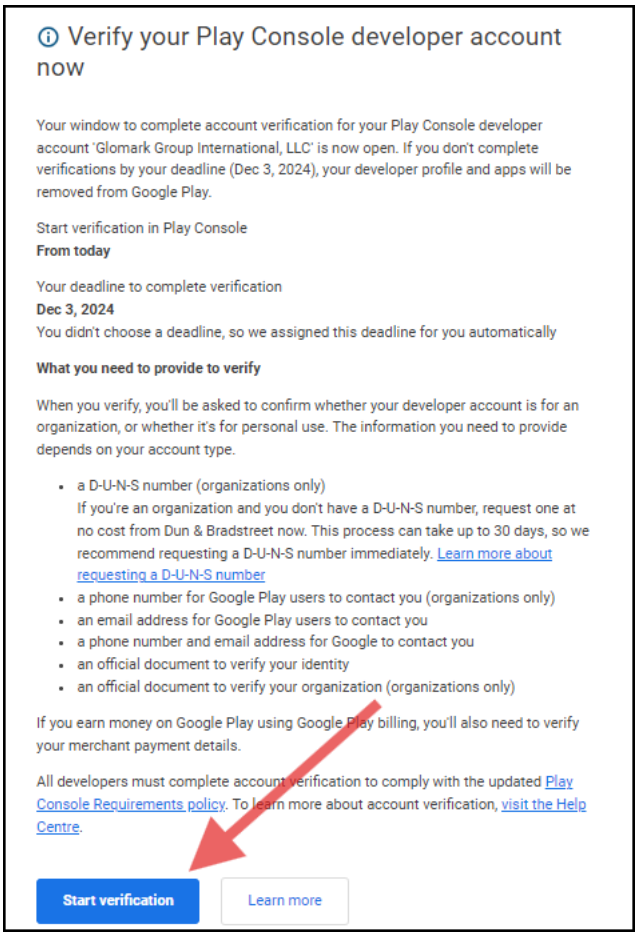
It is vitally important that you complete the steps below as quickly as possible to make sure your Android App does not fall off the Google Play Store.

About a year ago, Google made some changes to how accounts are verified. Your account was created before the implementation of this new process and you are now being required to adhere to the changes.

First

- locate an email from Google called Verify Your Play Console developer account now from this email address: noreply-play-console@google.com.

Click the button that says **Start Verification**



Verify your Play Console developer account now

Your window to complete account verification for your Play Console developer account 'Glomark Group International, LLC' is now open. If you don't complete verifications by your deadline (Dec 3, 2024), your developer profile and apps will be removed from Google Play.

Start verification in Play Console
From today

Your deadline to complete verification
Dec 3, 2024
You didn't choose a deadline, so we assigned this deadline for you automatically

What you need to provide to verify

When you verify, you'll be asked to confirm whether your developer account is for an organization, or whether it's for personal use. The information you need to provide depends on your account type.

- a D-U-N-S number (organizations only)
  If you're an organization and you don't have a D-U-N-S number, request one at no cost from Dun & Bradstreet now. This process can take up to 30 days, so we recommend requesting a D-U-N-S number immediately. Learn more about requesting a D-U-N-S number
- a phone number for Google Play users to contact you (organizations only)
- an email address for Google Play users to contact you
- a phone number and email address for Google to contact you
- an official document to verify your identity
- an official document to verify your organization (organizations only)

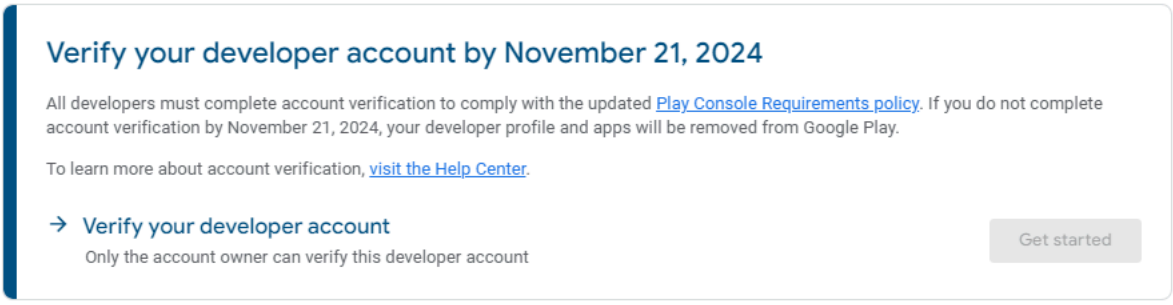
If you earn money on Google Play using Google Play billing, you'll also need to verify your merchant payment details.

All developers must complete account verification to comply with the updated Play Console Requirements policy. To learn more about account verification, visit the Help Centre.

Start verification | Learn more

You'll be asked to sign in to the Google account that was used to create the Developer Account.

Once you're signed in, click "Get Started".



Verify your developer account by November 21, 2024

All developers must complete account verification to comply with the updated Play Console Requirements policy. If you do not complete account verification by November 21, 2024, your developer profile and apps will be removed from Google Play.

To learn more about account verification, visit the Help Center.

Verify your developer account
Only the account owner can verify this developer account

Get started

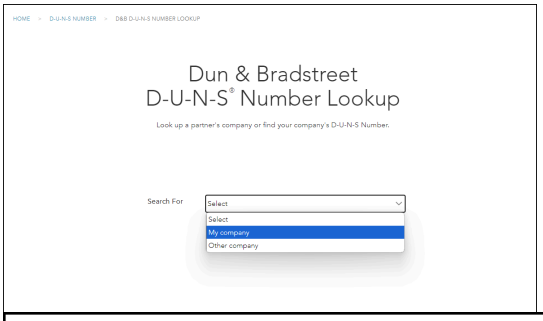
Next,

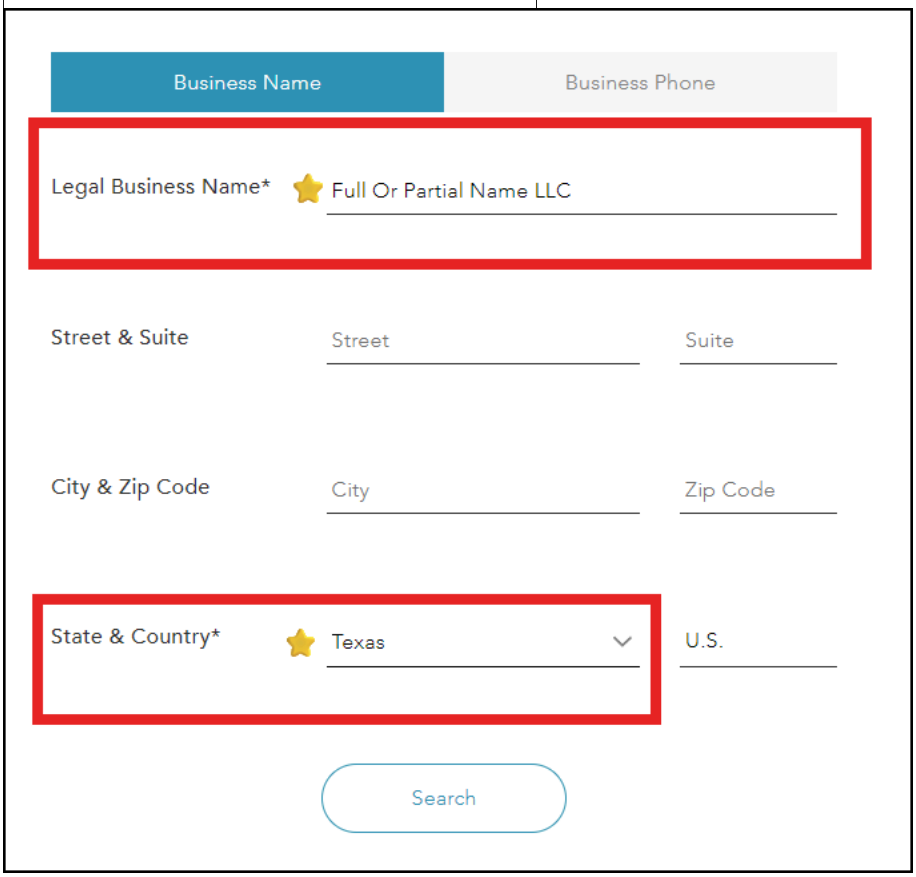
It'll ask to create a Payments Profile. This is going to require your DUNS Number. Make sure to enter the number exactly as it's listed from the DUNS Website.

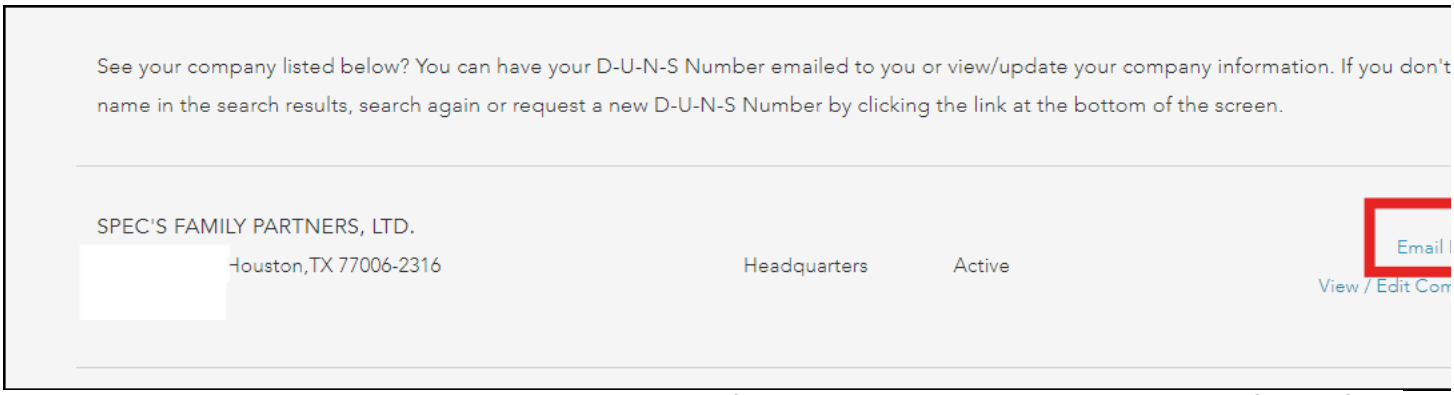
Here's how to find your DUNS Number.

Use this tool to locate yours if not supplied to you already in this email. Below are the instructions to find your business.

1. Make sure you select "My Company" in the dropdown box., use your legal entity name of the business.
2. You can use a partial name search to make it easier. *Sometimes DUNS may have punctuation that you don't typically use.*
3. Once you locate your business, select "Email Duns Number" and enter your name and email address. All the details required will be in the email you receive from dandb@click.dandb.com. It may appear in your SPAM folder.







Next, you'll be asked to upload some supporting documents for the business and personal documents of (one of) the owner(s).

1. **Some document verifying your legal entity and association to the retail store. For example...**
    1. Liquor License
    2. IRS Document
    3. Lease Agreement
    4. Utility Bill
2. **Front and Back *clear images* of the owner's Drivers License.**
    1. Make sure that all corners are visible in the image.
    2. Use a dark background.
    3. Must not be blurry and all text should be legible.
    4. Make sure you enter the personal address that matches the Drivers License you upload on the form following this upload.

THEN YOU ARE ALL DONE!
