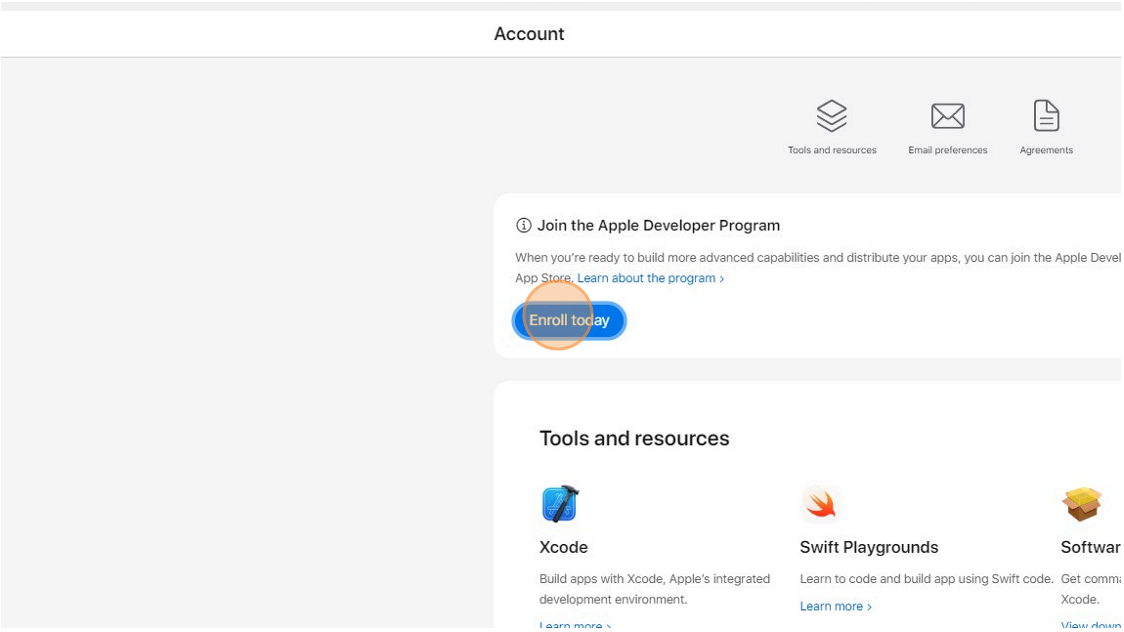
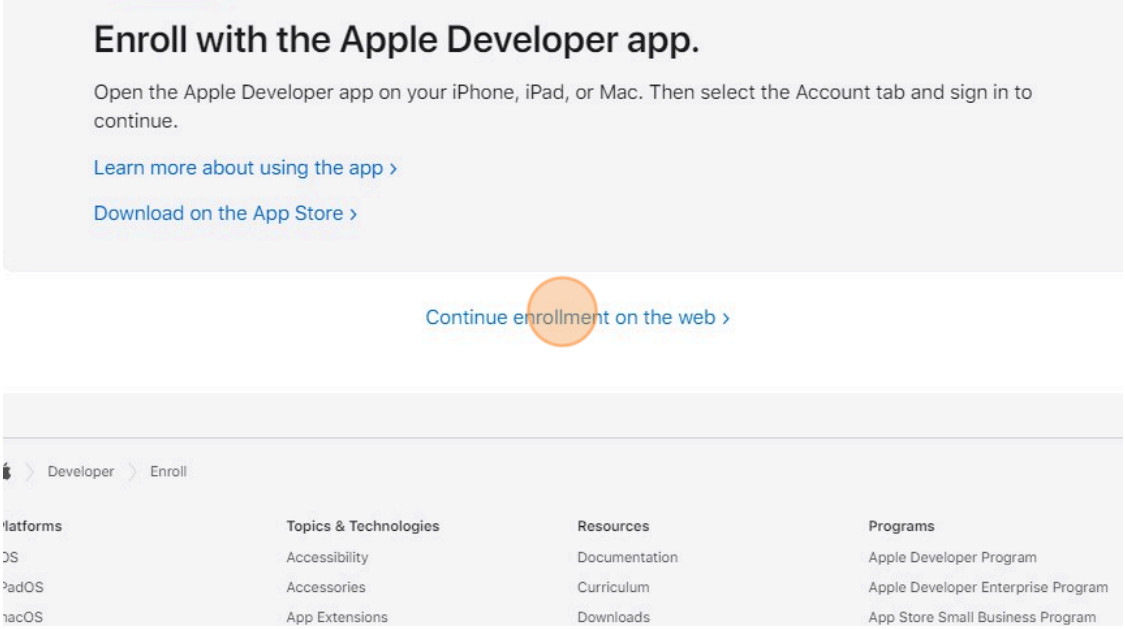
Enrolling in Apple Developer Program for a Company Account

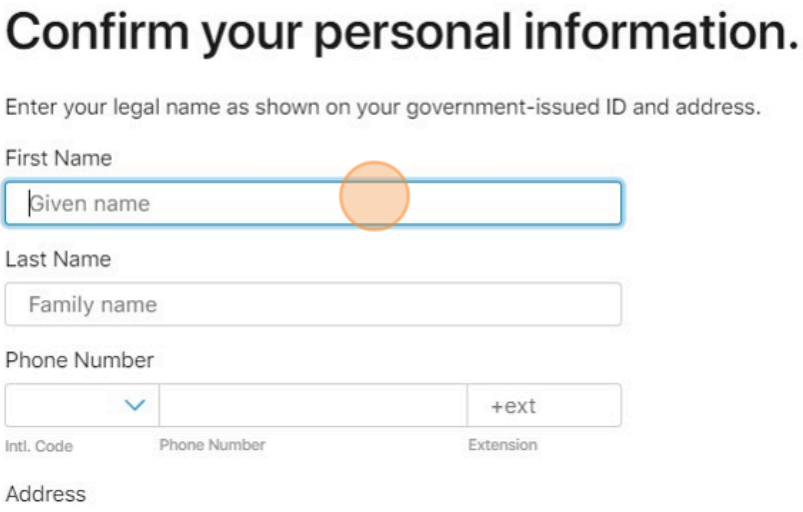
1. Navigate to https://developer.apple.com/account
2. Click "Enroll today"



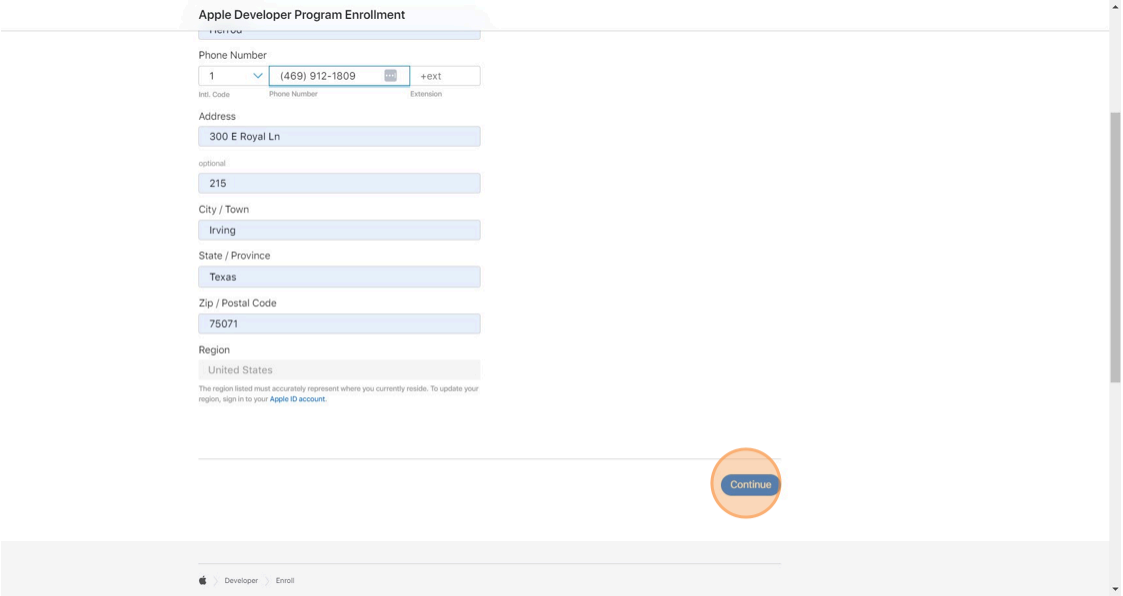
3. Click "Continue enrollment on the web"



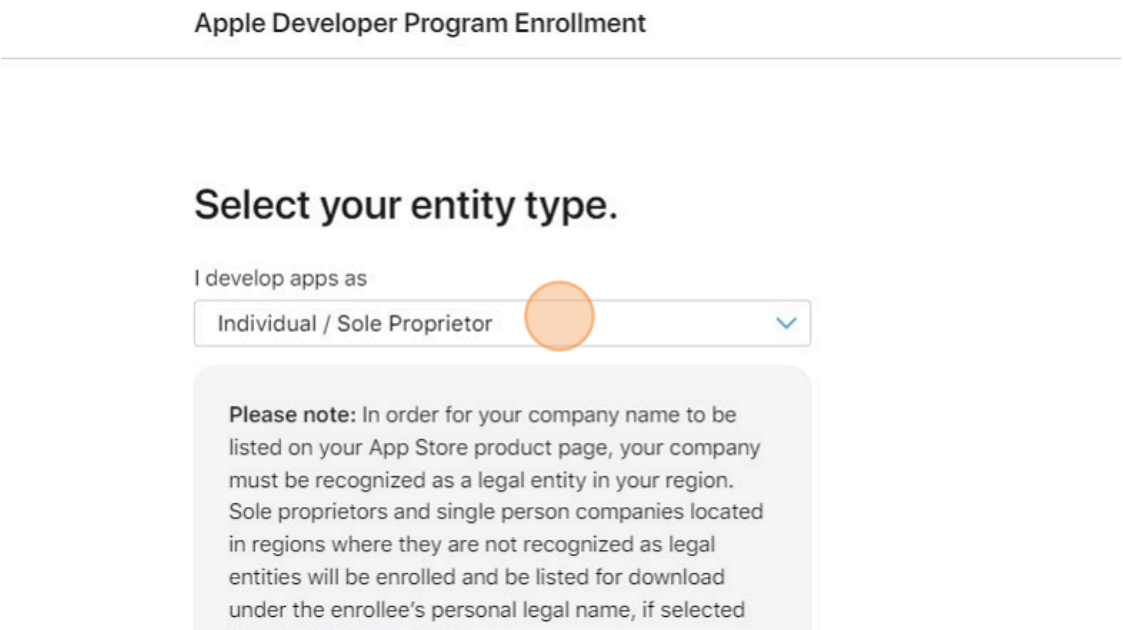
4. Enter the PERSONAL information of the legal owner.



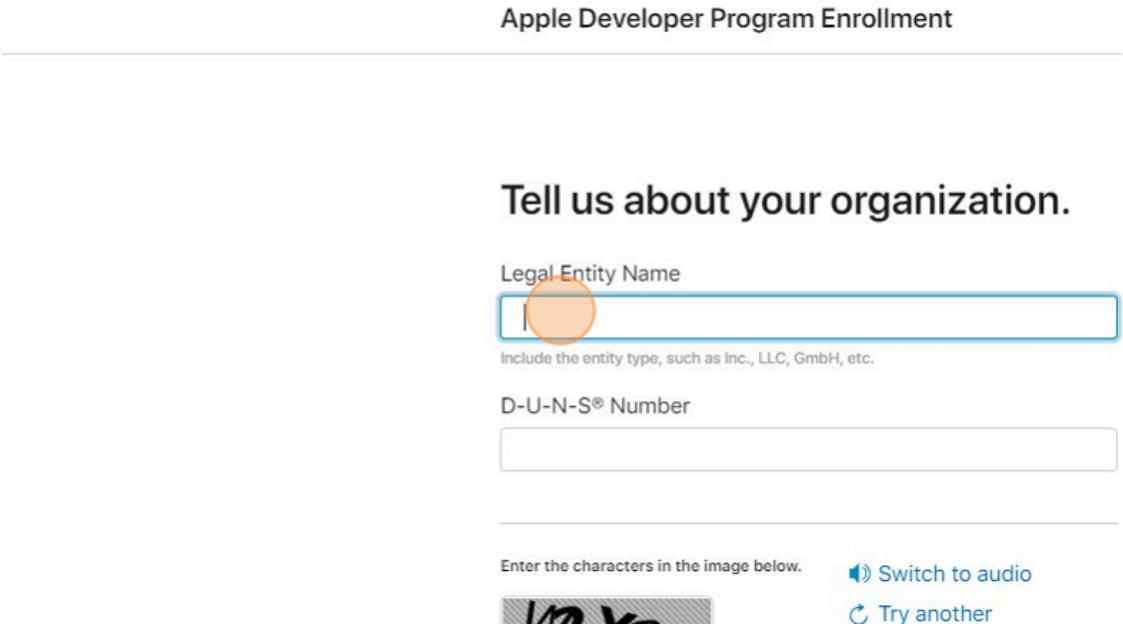
5. Click "Continue"



6. Click the "I developer apps as" dropdown. Select "company/organization"

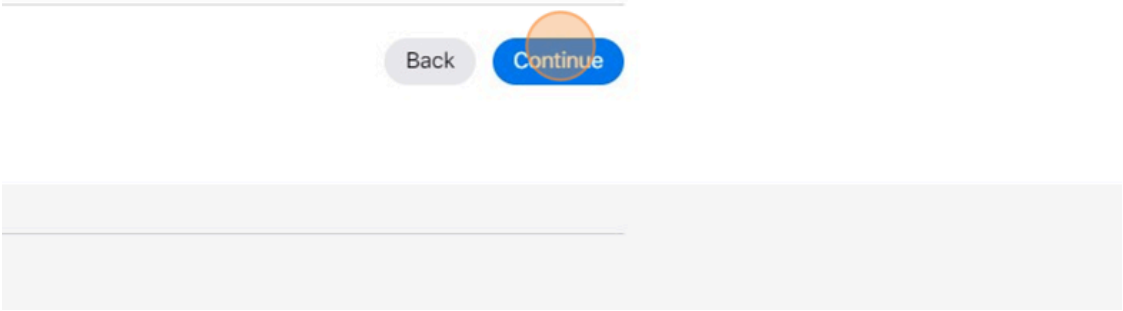


7. Click this text field.

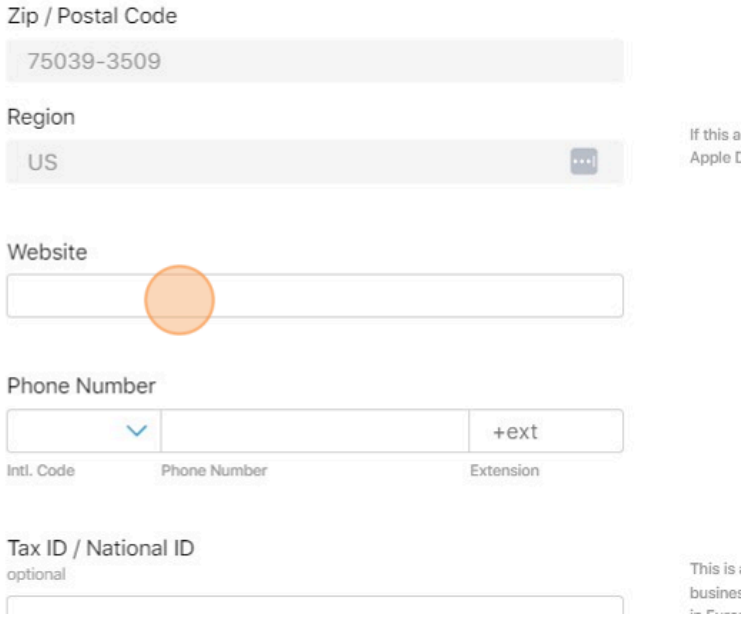


8. Enter your legal entity name as previously found on https://www.dnb.com/duns-number/lookup.html. Enter the details exactly from the results email from Dun and Bradstreet.

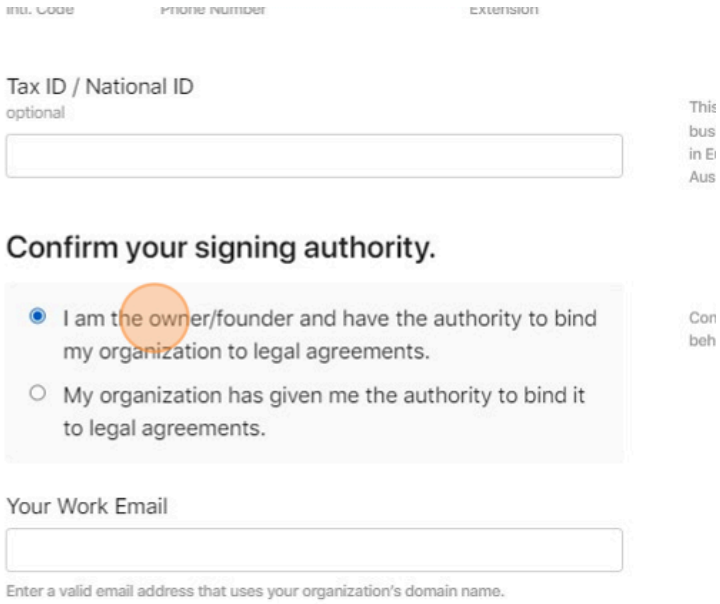
9. Click "Continue"



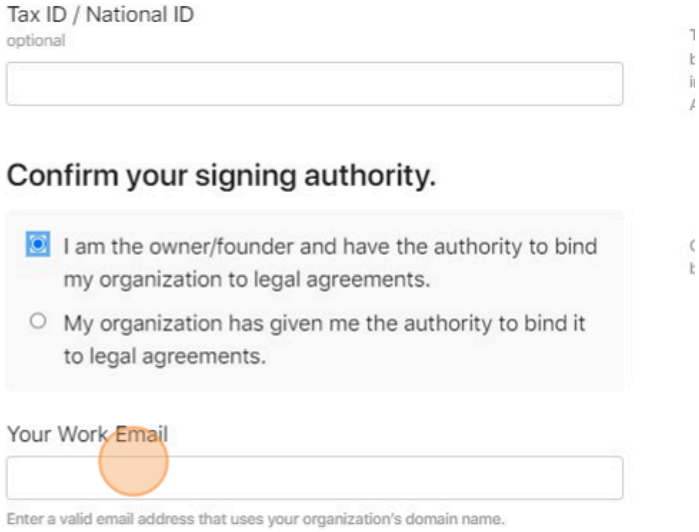
10. Enter your website name this text field. Make sure to include the https://storename.com format.



11. Click "I am the owner/founder and have the authority to bind my organization to legal agreements."



12. Click this email field. Make sure to enter an email ending your store website name.
i.e info@storename.com rather than storename@gmail.com.



Alert: Alert!
Even if that email doesn't exist, Apple will only accept that type of entry in the Work Email field.

13. Continue through the rest of the enrollment and click Submit/Continue.

Tip: Tip!
Once you've completed the enrollment, you'll need to monitor your inbox for communication from Apple.

You do NOT need to wait for your Onboarding Manager to continue with this step. Please proceed with what Apple asks you to do in the coming emails.
