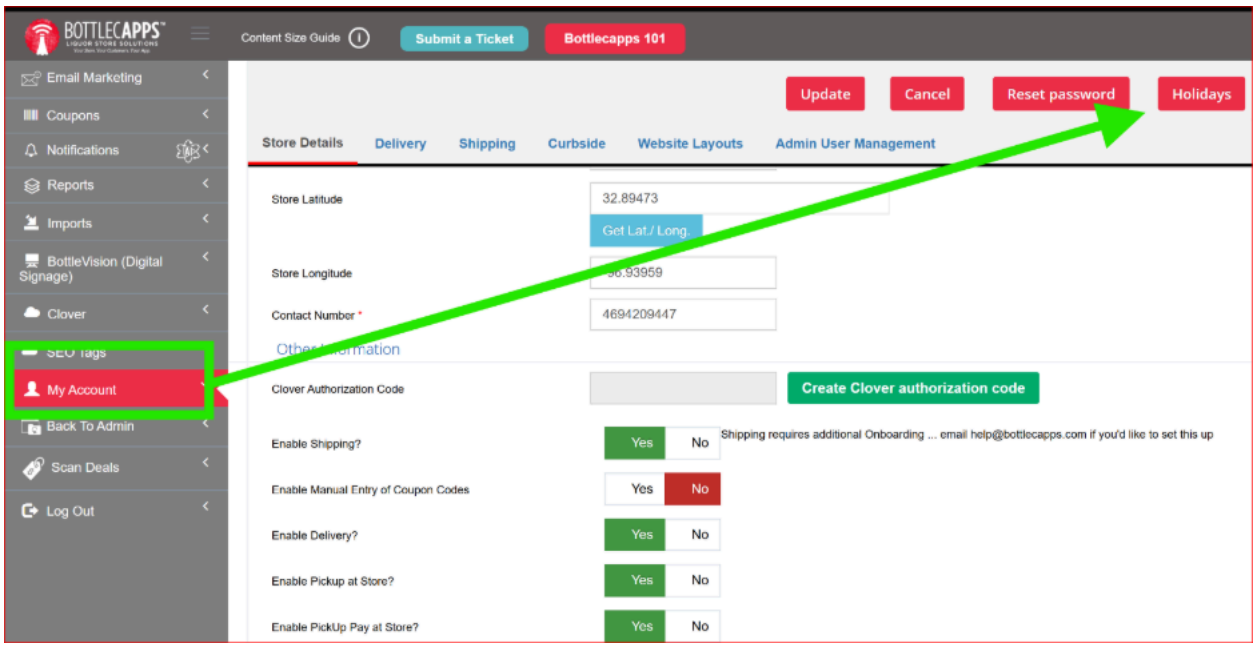
Holiday Settings

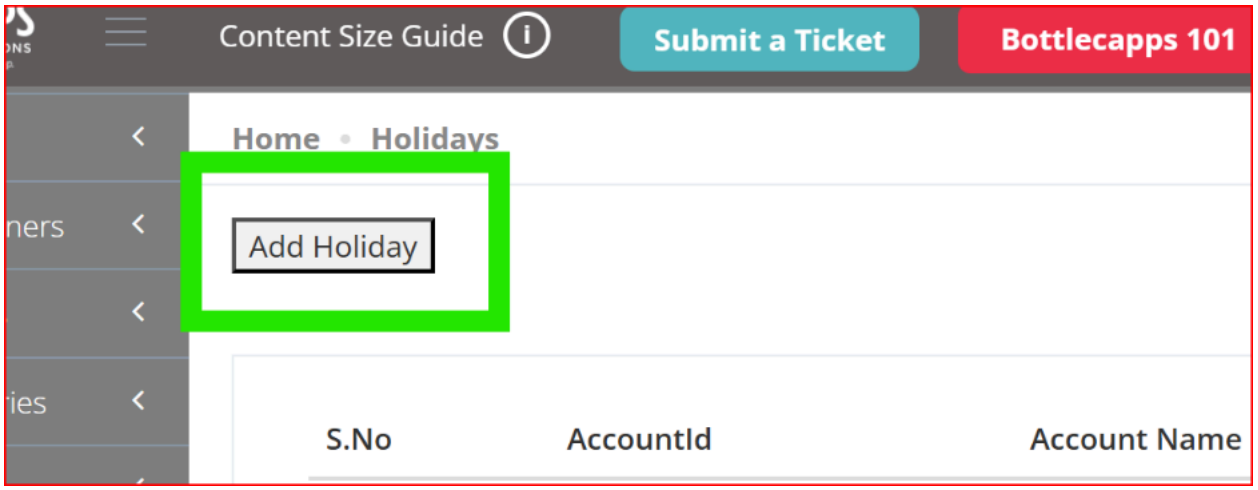
In the instance where you want to change the order settings for specific holidays, the HOLIDAYS button in your Webconsole can allow you to do just that. You can disable Pickup, Delivery, or Both for any given day you choose.

Note - this can only be done from the MAIN location (if you have multiple).

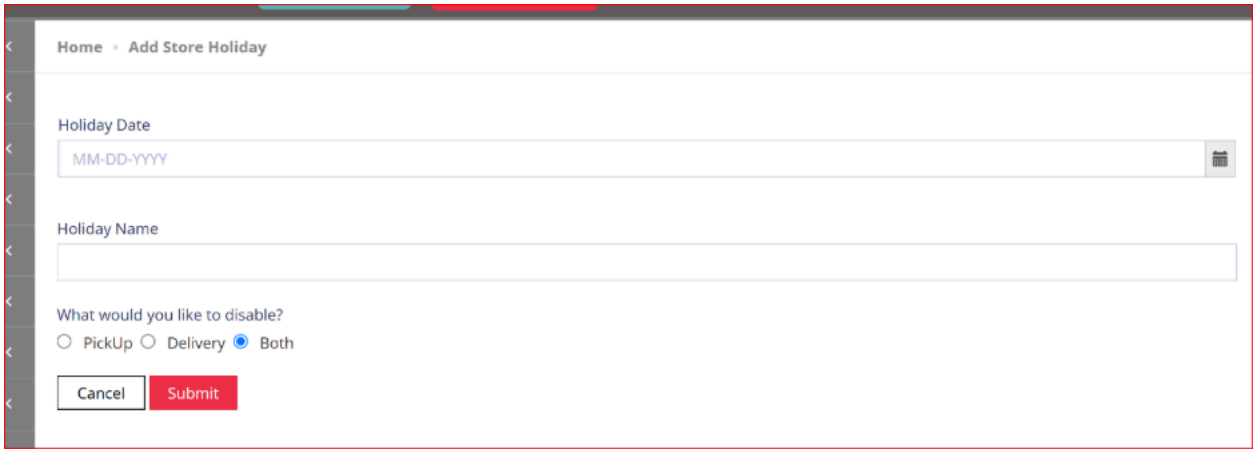
To adjust the ordering settings you want to offer during HOLIDAYS, click MY ACCOUNT on the lower left of your Webconsole. Then click HOLIDAYS in the upper right:



Then click ADD HOLIDAY



From there, simply enter the appropriate information (Date, Name of Holiday). You can disable Pickup, Delivery, or Both. Once done, click Submit:



NOTE – this will apply to all locations (if you have more than one).
